MEMORANDUM FOR: Deputy Director for Support  
SUBJECT: 25X1A [REDACTED] Survey of Technical  
Surveillance Countermeasures

1. This memorandum is for your information only.

25X1A [REDACTED]  
2. We have reviewed [REDACTED] Survey Report very carefully. In general, we believe it is an excellent report and should do much to crystallize existing deficiencies in the field of audio countermeasures, particularly as it pertains to Agency programs.

25X1A  
3. However, we believe that many of the comments and conclusions of [REDACTED] are overly general in nature and not supported by facts. Examples of the type of statements that concern us in this regard are as follows:

- a. Page 2, paragraph E.
- b. Page 3, paragraph F.
- c. Page 6, paragraph 1, last sentence.
- d. Page 6, paragraph 3.
- e. Page 6, last sentence.
- f. Page 8, paragraph 2, last sentence
- g. Page 9, paragraph 1, next to last sentence.

4. The most critical recommendation in [REDACTED] Report, in terms of this Office's appreciation of existing deficiencies, is Recommendation No. 7. The need for a crystallization and consolidation of the varying responsibilities of Agency components in the field of audio countermeasures has become increasingly apparent to this Office over the past few years. The Agency representation on the TSCC needs an intra-Agency Working Group to provide him with the very fullest degree of support to enable him to represent the Agency intelligently on the TSCC.
